

At One on One Services, please know that the health and safety of care providers, clients, and the community will always be our most important priority.

As the coronavirus (COVID-19) continues to impact our lives, we believe that an abundance of precaution is the best approach for us all.

We strongly suggest that you take precautions and follow the guidance from the Centers for Disease Control and Prevention, as well as our local and state health departments on best practices for staying healthy.

Thank you for your support as we work through this incredibly challenging time.
